	16 oz Multipurpose	WW100QT	7-1/4"x4-1/2"x2-7/8"	Vented	Button		500	36

INTRODUCING THE WORLD'S MOST INNOVATIVE TOP SEAL TRAY!

TotalFlange™

Habitat TotalFlange™ incorporates a full sealing flange, producing approximately 85% stronger seal than a vented interrupted flange.

HideAwayVents™

Habitat "HideAwayVents™" System is strategically placed and tucked away on the inside of the tray, allowing the full function of traditional side venting without compromising the product display within the tray.

InvisaRib™

Habitat "InvisaRib™" design has changed the dynamic on increasing side strength through ribbing. Our precision curves disappear into the side wall of the tray, creating the perfect crystal clear display case for your products.

JuiceTrap™

Habitat "JuiceTrap™" can be incorporated into any tray, holding fruit juices away from the product being displayed.

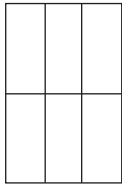

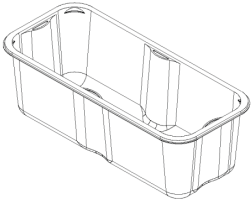

SsmoothBase™

Habitat "SMOOTHBASE™" design focuses on smooth edges around the base of the tray where tender and soft fruit traditionally are exposed to ribbed pressure points, eliminating damage to your product.

1.75lb Roma Tomato

Item 7501
11" x 4.875" x 3.652"

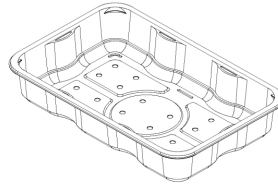

Modular
Format

2 LB Cocktail

Item 7502
